

THE DYNAMIC LEARNING MAPS PROFESSIONAL DEVELOPMENT MATERIALS

COLORADO SWAAAC HELP GUIDE

PROFESSIONAL DEVELOPMENTS

The DLM has online self-directed and facilitated modules to be given in groups by a facilitator. They are easy to follow and provide lots of instructional materials to use in intensive learning need classrooms.

CORE LANGUAGE

Under "Instructional Resources" the DLM PD site provides core vocabulary supports that could be used by teams creating boards on AAC devices and low-tech picture/symbol boards.

EYE GAZE & ALTERNATIVE PENCILS

Under "Writing Resources," the DLM PD site provides templates for a variety of alternative pencils for students needing low-tech supports for writing and communicating.

These materials are just print- laminate-use.

READING & WRITING RESOURCES

The DLM PD site offers text resources with exemplar texts for reading units, materials exchange, and writing supports for students in intensive learning centers.

IDEAS

The DLM PD site provides the easy to understand research around ELA and Math instruction for students with the most significant needs in their "DLM EEs Unpacking." Use this to help guide your standards-based IEP goal writing.
